

# Nitrile Gloves

People in the food industry will benefit from using these Nitrile gloves because they provide protection for the hands against animal fats, oil-based solvents, petroleum, caustics and acids. Three times the strength of conventional disposable gloves and with a better grip than vinyl, makes them ideal for food handling. Other unique features include:

- ✓ Stronger than comparable models.
- ✓ Long cuff option available (30cm overall length).
- ✓ Textured grip for safer handling.
- ✓ 3X Large size available.
- ✓ Nitrile gloves will not weaken or swell in animal fats, most solvents or caustics - last longer.
- ✓ Three times the strength and puncture resistance of conventional disposable gloves.
